

CORPORATE CAPABILITY STATEMENT

Medical Supply Chain Integrator & Strategic Sourcing Partner

Part 1 - Company Overview

Suzhou V5 Medical Technology Co., Ltd. ("V5 Medical") is a specialized medical supply chain integrator bridging the gap between global healthcare demands and China's advanced manufacturing capabilities. Unlike traditional trading companies, we operate as a structured medical organization with independent quality assurance, regulatory coordination, and global logistics functions.

We provide a one-stop procurement solution for government tenders, hospitals, and medical distributors. We operate under an ISO 13485-aligned quality management framework. Our mission is to reduce procurement risk and complexity while ensuring product traceability.

Part 2 - Core Competencies

We deliver medical consumables with technical documentation support:

- **Wound Closure:** Surgical Sutures (PGA, PDO, Silk, Nylon), Skin Staplers.
- **Infection Control:** Surgical Packs (Universal, C-Section, Orthopedic), Sterile Gowns, Drapes.
- **Injection & Infusion:** Disposable Syringes, Infusion Sets, IV Cannulas.
- **Diagnostic & Lab:** Specimen Containers, Blood Collection Tubes.
- **Pharmaceutical Packaging:** Folding Cartons, Package Inserts, Labels, Holographic Security Labels, Blister Trays.

Part 3 - Differentiators

- **Independent QA Oversight:** Our internal Quality Assurance team conducts independent audits and pre-shipment inspections, separate from the factory's own QC.
- **Risk Mitigation:** Contracts, payments, and compliance are centralized through V5 Medical, providing a single accountable counterparty for international buyers.
- **Consolidated Logistics:** We integrate products from multiple audited factories into single shipments, reducing shipping costs and handling customs clearance and import documentation.
- **Tender-Ready Documentation:** Our Regulatory Coordination team assists with the manufacturer's Technical Files and Declarations of Conformity (DoC) required for Ministry of Health tenders.

Part 4 - Organizational Structure

V5 Medical operates with a lean, specialized functional structure, combining in-house leadership with trusted strategic specialists:

- **Managing Director (Alden Cheng):** 15+ years of experience in international medical trade and strategic supply chain management.
- **Head of Quality & Regulatory Coordination:** Oversees ISO framework alignment, factory audits, and product certification technical files.
- **Order Management Lead:** Production scheduling, contract execution, and client status updates.
- **Global Logistics Lead:** Cross-border shipping documentation and freight coordination.
