CORPORATE CAPABILITY STATEMENT

Medical Supply Chain Integrator & Strategic Sourcing Partner

Part 1 - Company Overview

V5 Medical LTD is a specialized medical supply chain integrator bridging the gap between global healthcare demands and China's advanced manufacturing capabilities. Unlike traditional trading companies, we operate as a **structured medical organization** with independent quality assurance, regulatory coordination, and global logistics functions.

We provide a "One-Stop" procurement solution for government tenders, hospitals, and medical distributors. We operate under an **ISO 13485-aligned quality management framework**, ensuring that every product delivered meets international safety standards. Our mission is to reduce procurement risk and complexity while ensuring product traceability.

Part 2 - Core Competencies

We deliver high-quality medical consumables with full technical documentation support:

- **Wound Closure:** Surgical Sutures (PGA, PDO, Silk, Nylon), Skin Staplers.
- **Infection Control:** Surgical Packs (Universal, C-Section, Orthopedic), Sterile Gowns, Drapes.
- **Injection & Infusion:** Disposable Syringes, Infusion Sets, IV Cannulas.
- **Diagnostic & Lab:** Specimen Containers, Blood Collection Tubes.

Part 3 - Differentiators

Why partners choose V5 Medical for high-stakes tenders:

-  **Independent QA Oversight:** We act as your quality firewall. Our internal **Quality Assurance Team** conducts independent audits and pre-shipment inspections to ensure alignment with **EU MDR** and **FDA** requirements, independent of the factory's own QC.
-  **Risk Mitigation:** We hold our manufacturing partners to the highest standards. Contracts, payments, and compliance are centralized through V5 Medical, providing a secure transaction layer for international buyers.
-  **Consolidated Logistics:** We integrate products from multiple audited factories into single shipments, reducing shipping costs and handling complex **customs clearance & import compliance**.

-  **Tender-Ready Documentation:** Our Regulatory Coordination team assists with full Technical Files, Declarations of Conformity (DoC), and Clinical Evaluation Reports required for Ministry of Health (MoH) tenders.

Part 4 - Organizational Structure

V5 Medical operates with a lean but specialized functional structure, combining in-house leadership with trusted strategic specialists to ensure efficiency:

- **Managing Director (Alden Cheng):** 15+ years of experience in international medical trade and strategic supply chain management.
- **Head of Quality & Regulatory Coordination:** Senior professional overseeing ISO framework alignment, factory audits, and product certification technical files.
- **Order Management Lead:** Dedicated to production scheduling, contract execution, and client status updates.
- **Global Logistics Lead:** Specialist in cold-chain logistics, dangerous goods handling, and cross-border shipping documentation.
- **Financial Controller:** Ensures transparent international settlements and banking compliance.

Part 5 - Company Data

- **Business Type:** Medical Supply Chain Integrator
- **Year Established:** 2023 (Core team active since 2008)
- **Quality Standard:** Operating under **ISO 13485-aligned Framework**
- **Primary Markets:** Europe, Central Asia (CIS), Middle East, South America
